HARDLY ENOUGH BUSINESS TO KEEP SPECULATORS AWAKE.

Shares Long Since Neglected and Every-Day "Farmers" Becoming Fewer-Local Trade Quiet.

Total sales of stocks to-day were 91,019 shares, including the following: American Tobacco, 6,000; American Sugar, 18,200; Burlington, 9,000; Reading, 3,700; St. Paul, 6,600. The remark is heard sometimes now in

Wall street by disgusted traders that there might as well not be any Stock Exchange, considering the small amount of business being done. The sales of stocks yesterday were below the average for many days past. The figures are regretfully contrasted with those of former times, but very long ago, when the number of shares dealt in would run all the way from 500,000 to over 2,000,000 shares in a day. The stagnation in yesterday's market was held in the face of many encouraging factors in the general situation, including an undoubted confidence in the minds of most business men that industrial revival is imminent in the country and has actually set in in several branches of business. Out of seventeen reports of the earnings of railways for the third week in February published yesterday fourteen showed an increase. Prices rose on the London Exchange on the promise of peace in Europe, yet the confidence of traders in the improvement of values lasted only a short period after the opening of the exchange, when stagnation and heaviness again dominated the market and held it to the close. The small volume e; trading left wide gaps even in the list of usually active stocks. An immediate cause of the apathy was without doubt due to uncertainty regarding the extent of the tension in the relations between this country and Spain and to fears of the effect on values of ardent discussion reported to be in progress in Congress over the maltreatment of American prisoners in Cuba. There is an undercurrent of feeling in the street that possibly the authorities at Washington are holding off complications to give the new administration opportunity to shape its own policy upon them. The near approach of the new administration naturally leads to an attitude of waiting for information on questions of policy generally. These considerations soon gave a check to the moderate buying movement, with fractional advance, which opened the day. A decline followed, which was, in most cases, of equally narrow proportions. Indeed, the undertone of firmness in the market is

offerings quickly exhausted. The expected happened in the appointment of a receiver for Hocking Valley and there was little effect on the general market. The financial straits of the company were due to the recent demoralization in the Ohio soft-coal traffic, now adjusted by agreement, with the result of improved railway earnings, but not before several of the roads have gone into the hands of receivers. Strangely the stock advanced on the first announcement of a receiver, after an early decline of 11/2, but it broke again to 314 and closed at 25s. The general fives fell 11/2, to 671/2, and rallied to 723/4. The sixes opened unchanged at 50, and advanced to 55% on the announcement of the proposed reorganization. The investigation of the coal agreements by the legislative committee, together with a decline of Le-high Valley in Philadelphia, were the factors in a decline in New Jersey Central of with subsequent recovery of 4. the decline for the day being %. Sugar, Manhattan and Tobacco were also conspicuous in the decline that became general. There was a slight rally about 1 o'clock. Then the fall of values set in again, some shares closing at the lowest. Sugar dropped to 114. The market left off weak, with fractional losses throughout. Omaha was more

notable, and a falling market finds the

actively dealt in than of late and advanced fractionally, the preferred stock also jumping 11/2, to 135, and closing at 136 bid. A favorable symptom of the general condence in the financial outlook is indicated by the growing demand for bonds, which are relatively more active than stocks. The ease with which large amounts of municipal mortgages are floated and the ready acceptance of considerable amounts of refunded railway issues at laregly reduced interest rates reflects plainly the vast amount of money awaiting profitable investment in securities yielding a reasonable return on capital disbursed. The inquiry emanates from all quarters, with the foreign interests the most eager bidders for the guaranteed liens. The semi-stagnation witnessed in the stock market is foreing the banks, trust companies and other large lenders of money to employ idle capital in purchases of fair-grade issues, particularly those undergoing reorganization, The market exhibits a broader tendency, with the securities of standard properties assuming greater prominence. The speculative bonds are comparatively less active and move narrowly. The Hocking Valley mortgages were the feature of the trading yesterday and registered material gains, The general undertone was strong, but the improvements did not exceed fractional

proportions, as a rule. The sales were Prices of government securities continue to advance toward a higher plane, with the new fours coupons attaining 122% on a purchase of a block of \$100,000. The following table, prepared by L. W. Louis, Room Il Board of Trade, shows the range of

James Parker, Vincennes. Why a Cat Plays with a Mouse,

"The idea that cats out of cruelty play with a mouse before killing it is a mistake," said a cat fancier. "Notice what happens when a cat catches sparrow. The bird is not played with, but slain at once. If the cat tried any game with it the sparrow, though wounded, could easily fly out of reach. "A mouse cannot escape in that way, so the cat practices upon the unfortunate animal a variety of experiments in order to keep its powers as a hunter up to the mark. That is why it gives the mouse chances of getting away, and the harder the task he sets himself the more will his skill be improved. If he did not take such

GOOD CASH BUSINESS LATE IN THE SESSION CAUSED ADVANCE.

Strength Extended to Corn and Oat in a Small Degree-Provisions Weak and Lower.

CHICAGO, Feb. 25 .- Wheat was very irregular to-day, but advanced sharply late in the session on reports of sales of foreign stocks and a good cash business at %c advance. Corn and oats were helped to the extent of about 1/4c each. Provisions closed at prices a shade lower all arcund.

Further depression was visible among the wheat traders at the beginning and during the first hour of the session. May, which closed yesterday at 74%c, was for sale at from 73%c to 73%c when trading began. It recovered to 73%c, and from that it slowly receded to 73%c and again took a second up turn, which stopped at 74@74%c. After that it had a fresh survey of the situation for a while from a point of view between the last-named figures and 73%c. The opening weakness was in large measure the resuit of more peaceful outlook in Europe. English consols opened 3-16c higher than they closed yesterday, which was the best evidence that could be had of the unlikelihood of the Greeks and Cretans embroiling the great nations in their contest. Liverpool gave evidence in the same direction by an opening decline of %d, and at no time during the session did it show signs of strength. The only item in the early news which might be construed in favor of the bulls was the continued lightness of the Northwest receipts, Minneapolis and Duluth reporting but 198 cars, against 465 last year. Chicago received 13 cars, against 500 last year. But there were plenty of buyers at the opening decline, enough, at any rate, to start prices upward immediately. Traders, as a rule, seemed undecided what side of the market to play. The Price Current's report on the reserves in farmers' hands, which was circulated about half an hour from the opening, was considered bearish and naturally had an effect on furnished by Theo. Stein, abstracter of titles, prices, It was not until a deluge of crop corner of Market and Pennsylvania streets, In- damage reports came in from St. Louis that the market began to show its teeth to the bears. After reacting irregularly to firm at 26%c; sales, 79 bris. Rosin firm. 73%c, May took a leap to 74 sc, with scarcely a sale intervening, on messages from San Francisco making claims that visible stocks in California are down to 23,000 tons-about 767,000 bu-compared with 84,000 tons last year and 260,000 tons the same time in 18% There was an additional scare and remarkable jump in prices of wheat at Tacoma. Cash business was reported amounting to over 170,000 bu, and New York claimed 17 boatloads for export. The market became very strong toward the end, finally selling up to 74% and closing firm at 74% @74%

> Corn ruled quiet, and while some of the early transactions were at a slight decline the firm feeling which developed in wheat gradually helped the market. There was some selling on an expected freer movement from the interior. Atlantic ports shipments were 533,000 bu. May opened 1sc lower, at 24%c, recovered to 24%c and closed at 24% Q24%c. Oats were quiet, with a firm tone reported and prices ruling a shade better. Shorts showed a mild disposition to cover and the strength of wheat was also of assistance. May opened a shade lower, at 17@18%c, and advanced to 174c, where it closed, visions were dull and barely steady. Hog

receipts were light and a small opening advance resulted, which was afterward lost under commission-house selling. At the close May pork was 21/2c lower, at \$8.02; May lard a shade lower, at \$4.0764.10, and May ribs a shade lower, at \$4 15. Estimated receipts for Friday-Wheat, 12 cars; corn, 175 cars; cats, 205 cars; hogs, 25,000 head.
